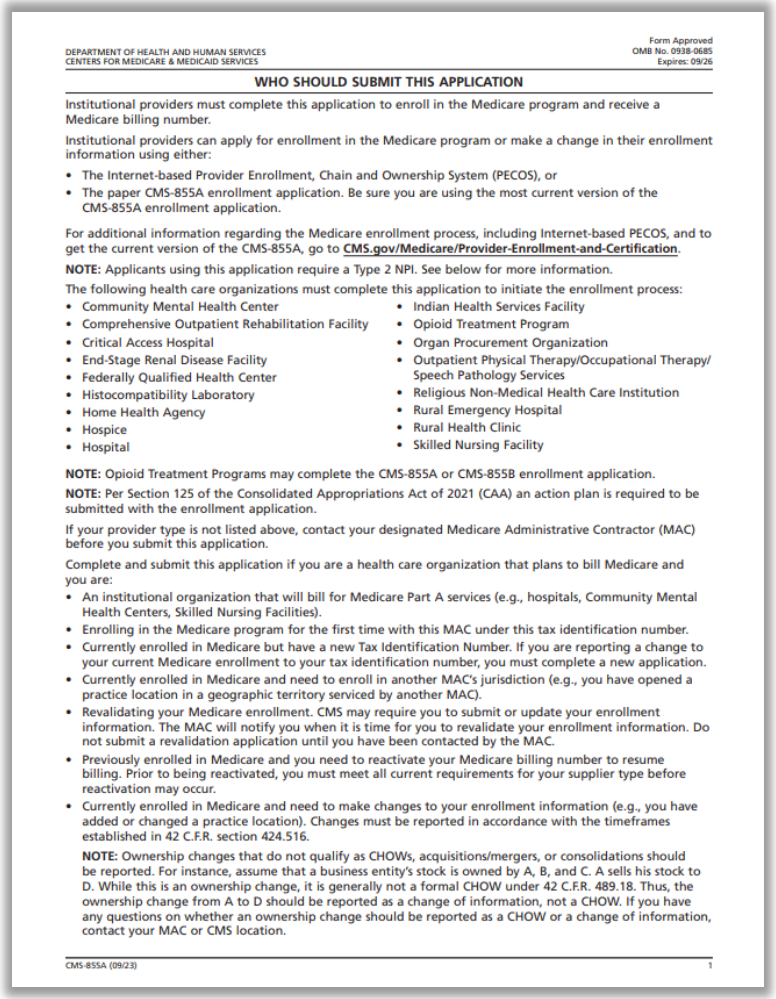
Who Should Complete This Application



DEPARTMENT OF HEALTH AND HUMAN SERVICES
CENTERS FOR MEDICARE & MEDICAID SERVICES

Form Approved
OMB No. 0938-0685
Expires: 09/26

WHO SHOULD SUBMIT THIS APPLICATION

Institutional providers must complete this application to enroll in the Medicare program and receive a Medicare billing number.

Institutional providers can apply for enrollment in the Medicare program or make a change in their enrollment information using either:

- The Internet-based Provider Enrollment, Chain and Ownership System (PECOS), or
- The paper CMS-855A enrollment application. Be sure you are using the most current version of the CMS-855A enrollment application.

For additional information regarding the Medicare enrollment process, including Internet-based PECOS, and to get the current version of the CMS-855A, go to **CMS.gov/Medicare/Provider-Enrollment-and-Certification**.

NOTE: Applicants using this application require a Type 2 NPI. See below for more information.

The following health care organizations must complete this application to initiate the enrollment process:

- Community Mental Health Center
- Comprehensive Outpatient Rehabilitation Facility
- Critical Access Hospital
- End-Stage Renal Disease Facility
- Federally Qualified Health Center
- Histocompatibility Laboratory
- Home Health Agency
- Hospice
- Hospital
- Indian Health Services Facility
- Opioid Treatment Program
- Organ Procurement Organization
- Outpatient Physical Therapy/Occupational Therapy/ Speech Pathology Services
- Religious Non-Medical Health Care Institution
- Rural Emergency Hospital
- Rural Health Clinic
- Skilled Nursing Facility

NOTE: Opioid Treatment Programs may complete the CMS-855A or CMS-855B enrollment application.

NOTE: Per Section 125 of the Consolidated Appropriations Act of 2021 (CAA) an action plan is required to be submitted with the enrollment application.

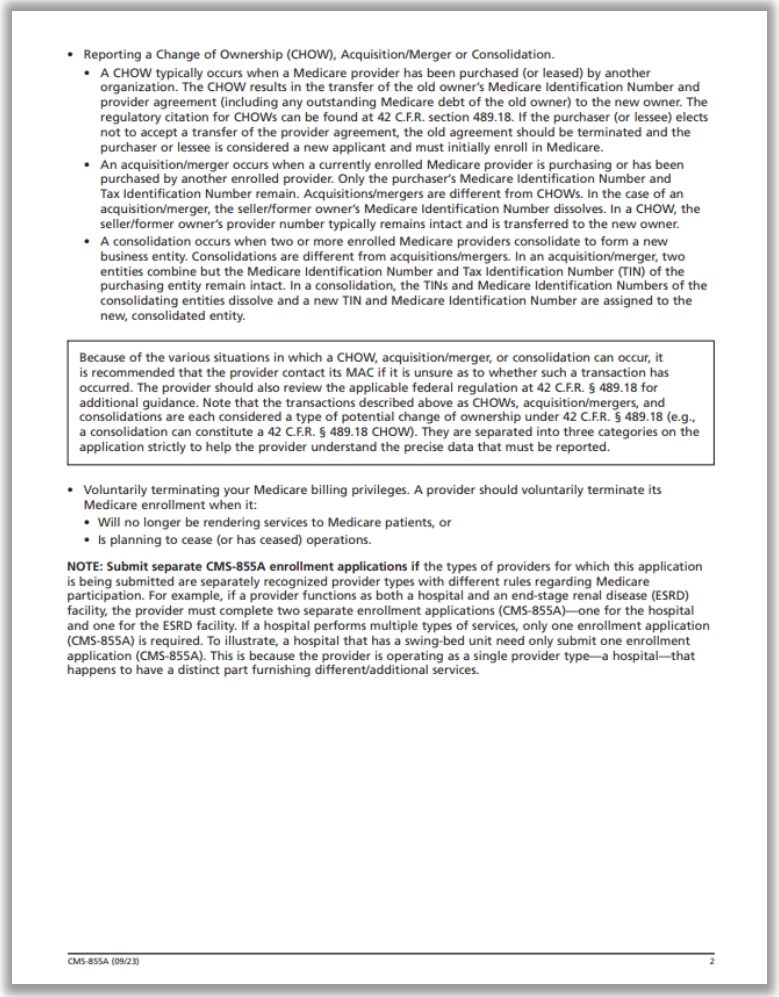
If your provider type is not listed above, contact your designated Medicare Administrative Contractor (MAC) before you submit this application.

Complete and submit this application if you are a health care organization that plans to bill Medicare and you are:

- An institutional organization that will bill for Medicare Part A services (e.g., hospitals, Community Mental Health Centers, Skilled Nursing Facilities).
- Enrolling in the Medicare program for the first time with this MAC under this tax identification number.
- Currently enrolled in Medicare but have a new Tax Identification Number. If you are reporting a change to your current Medicare enrollment to your tax identification number, you must complete a new application.
- Currently enrolled in Medicare and need to enroll in another MAC's jurisdiction (e.g., you have opened a practice location in a geographic territory serviced by another MAC).
- Revalidating your Medicare enrollment. CMS may require you to submit or update your enrollment information. The MAC will notify you when it is time for you to revalidate your enrollment information. Do not submit a revalidation application until you have been contacted by the MAC.
- Previously enrolled in Medicare and you need to reactivate your Medicare billing number to resume billing. Prior to being reactivated, you must meet all current requirements for your supplier type before reactivation may occur.
- Currently enrolled in Medicare and need to make changes to your enrollment information (e.g., you have added or changed a practice location). Changes must be reported in accordance with the timeframes established in 42 C.F.R. section 424.516.

  NOTE: Ownership changes that do not qualify as CHOWs, acquisitions/mergers, or consolidations should be reported. For instance, assume that a business entity's stock is owned by A, B, and C. A sells his stock to D. While this is an ownership change, it is generally not a formal CHOW under 42 C.F.R. 489.18. Thus, the ownership change from A to D should be reported as a change of information, not a CHOW. If you have any questions on whether an ownership change should be reported as a CHOW or a change of information, contact your MAC or CMS location.

CMS-855A (09/23) 1



- Reporting a Change of Ownership (CHOW), Acquisition/Merger or Consolidation.
  - A CHOW typically occurs when a Medicare provider has been purchased (or leased) by another organization. The CHOW results in the transfer of the old owner's Medicare Identification Number and provider agreement (including any outstanding Medicare debt of the old owner) to the new owner. The regulatory citation for CHOWs can be found at 42 C.F.R. section 489.18. If the purchaser (or lessee) elects not to accept a transfer of the provider agreement, the old agreement should be terminated and the purchaser or lessee is considered a new applicant and must initially enroll in Medicare.
  - An acquisition/merger occurs when a currently enrolled Medicare provider is purchasing or has been purchased by another enrolled provider. Only the purchaser's Medicare Identification Number and Tax Identification Number remain. Acquisitions/mergers are different from CHOWs. In the case of an acquisition/merger, the seller/former owner's Medicare Identification Number dissolves. In a CHOW, the seller/former owner's provider number typically remains intact and is transferred to the new owner.
  - A consolidation occurs when two or more enrolled Medicare providers consolidate to form a new business entity. Consolidations are different from acquisitions/mergers. In an acquisition/merger, two entities combine but the Medicare Identification Number and Tax Identification Number (TIN) of the purchasing entity remain intact. In a consolidation, the TINs and Medicare Identification Numbers of the consolidating entities dissolve and a new TIN and Medicare Identification Number are assigned to the new, consolidated entity.

Because of the various situations in which a CHOW, acquisition/merger, or consolidation can occur, it is recommended that the provider contact its MAC if it is unsure as to whether such a transaction has occurred. The provider should also review the applicable federal regulation at 42 C.F.R. § 489.18 for additional guidance. Note that the transactions described above as CHOWs, acquisition/mergers, and consolidations are each considered a type of potential change of ownership under 42 C.F.R. § 489.18 (e.g., a consolidation can constitute a 42 C.F.R. § 489.18 CHOW). They are separated into three categories on the application strictly to help the provider understand the precise data that must be reported.

- Voluntarily terminating your Medicare billing privileges. A provider should voluntarily terminate its Medicare enrollment when it:
  - Will no longer be rendering services to Medicare patients, or
  - Is planning to cease (or has ceased) operations.

NOTE: Submit separate CMS-855A enrollment applications if the types of providers for which this application is being submitted are separately recognized provider types with different rules regarding Medicare participation. For example, if a provider functions as both a hospital and an end-stage renal disease (ESRD) facility, the provider must complete two separate enrollment applications (CMS-855A)—one for the hospital and one for the ESRD facility. If a hospital performs multiple types of services, only one enrollment application (CMS-855A) is required. To illustrate, a hospital that has a swing-bed unit need only submit one enrollment application (CMS-855A). This is because the provider is operating as a single provider type—a hospital—that happens to have a distinct part furnishing different/additional services.

BILLING NUMBER AND NATIONAL PROVIDER IDENTIFIER INFORMATION

The Provider Transaction Access Number (PTAN), often referred to as a Medicare Provider Number, Medicare Billing Number, CMS Certification Number (CCN), or Medicare "legacy" number, is a generic term for any number other than the National Provider Identifier (NPI) that is used by a provider to bill the Medicare program.

The National Provider Identifier (NPI) is the standard unique health identifier for health care providers and suppliers and is assigned by the National Plan and Provider Enumeration System (NPPES). **Medicare healthcare providers, except organ procurement organizations, must obtain an NPI prior to enrolling in Medicare or before submitting a change to your existing Medicare enrollment information.** Applying for an NPI is a process separate from Medicare enrollment. As an organizational health care provider, it is your responsibility to determine if you have "subparts." A subpart is a component of an organization that furnishes healthcare and is not itself a legal entity. If you do have subparts, you must determine if they should obtain their own unique NPIs. Before you complete this enrollment application, you need to make those determinations and obtain NPI(s) accordingly. For more information about subparts, visit **CMS.gov/Regulations-and-Guidance/Administrative-Simplification/NationalProvIdentStand/implementation** to view the "Medicare Expectations Subparts Paper." To obtain an NPI, you may apply online at **nppes.cms.hhs.gov**. For more information about NPI enumeration, visit **CMS.gov/Regulations-and-Guidance/Administrative-Simplification/NationalProvIdentStand/apply**.

NOTE: The Legal Business Name (LBN) and Tax Identification Number (TIN) that you furnish in section 2B1 must be the same LBN and TIN you used to obtain your NPI. Once this information is entered into PECOS from this application, your LBN, TIN and NPI ***must*** match exactly in both the Medicare Provider Enrollment Chain and Ownership System (PECOS) and the National Plan and Provider Enumeration System (NPPES).

Organizational Health Care Providers (Entity Type 2): Organizational health care providers are eligible for an Entity Type 2 NPI (Organizations). Organizational health care providers may have a single employee or thousands of employees. Examples of organizational providers include hospitals, home health agencies, groups/clinics, nursing homes, ambulance companies, health care provider corporations formed by groups/individuals, and single member LLCs with an EIN, but do ***not*** include individual health care providers.

INSTRUCTIONS FOR COMPLETING AND SUBMITTING THIS APPLICATION

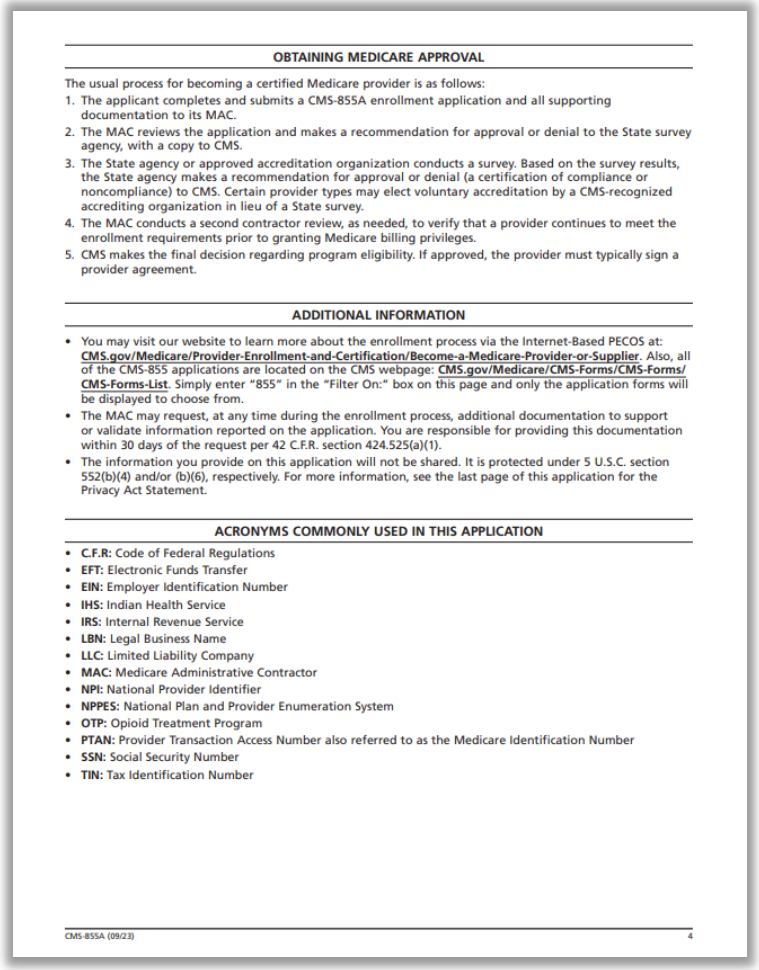
All information on this form is required with the exception of those fields specifically marked as "optional." Any field marked as optional is not required to be completed nor does it need to be updated or reported as a "change of information" as required in 42 C.F.R. section 424.516. However, it is highly recommended that if reported, these fields be kept up-to-date.

- This form must be typed. It may not be handwritten.
- When necessary to report additional information, copy and complete the applicable section as needed.
- Attach all required supporting documentation.
- Keep a copy of your completed Medicare enrollment package for your records.

TIPS TO AVOID DELAYS IN YOUR ENROLLMENT

To avoid delays in the enrollment process, you should:

- Complete all required sections, as shown in section 1.
- Ensure that the Legal Business Name shown in section 2B1 matches the name on the tax documents.
- Ensure that the correspondence address shown in section 2C is the provider's address.
- Enter your NPI in the applicable section(s).
- Include the Electronic Funds Transfer (EFT) Authorization Agreement (when applicable) with your enrollment application with a voided check or bank letter.
- Sign and date section 15.
- Ensure all supporting documents are sent to your designated MAC.
- Pay the required application fee (via **pecos.cms.hhs.gov/pecos/feePaymentWelcome.do**) upon initial enrollment, the addition of a new practice location, and revalidation PRIOR to completing and submitting this application to your MAC.



OBTAINING MEDICARE APPROVAL

The usual process for becoming a certified Medicare provider is as follows:

1. The applicant completes and submits a CMS-855A enrollment application and all supporting documentation to its MAC.
2. The MAC reviews the application and makes a recommendation for approval or denial to the State survey agency, with a copy to CMS.
3. The State agency or approved accreditation organization conducts a survey. Based on the survey results, the State agency makes a recommendation for approval or denial (a certification of compliance or noncompliance) to CMS. Certain provider types may elect voluntary accreditation by a CMS-recognized accrediting organization in lieu of a State survey.
4. The MAC conducts a second contractor review, as needed, to verify that a provider continues to meet the enrollment requirements prior to granting Medicare billing privileges.
5. CMS makes the final decision regarding program eligibility. If approved, the provider must typically sign a provider agreement.

Special Enrollment Notes

- If you are adding a psychiatric or rehabilitation unit to a hospital, check the appropriate subcategory under the "Hospital" heading. (A separate enrollment for the psychiatric/rehabilitation unit is not required). The unit should be listed as a practice location in Section 4.
- If you are adding a home health agency (HHA) branch, list it as a practice location in Section 4. A separate enrollment application is not necessary.
- If you are changing hospital types (e.g., general hospital to a psychiatric hospital), indicate this in Section 2. A new/separate enrollment is not necessary.
- If the hospital will focus on certain specialized services, the applicant should analyze whether the facility will be a general hospital or will fall under the category of a specialty hospital. A specialty hospital is defined as a facility that is primarily engaged in cardiac, orthopedic, or surgical care. Based upon Diagnosis Related Group/Major Diagnosis Category (DRG/MDC) and type (medical/surgical), the applicant should project all inpatient discharges expected in the first year of the hospital's operation. Those applicants that project that 45% or more of the hospital's inpatient cases will fall in either cardiac (MDC-5), orthopedic (MDC-8), or surgical care should check the Hospital—Specialty Hospital block in Section 2A2.
- Physician-owned hospital means any participating hospital (as defined in 42 C.F.R. section 489.24) in which a physician, or an immediate family member of a physician has an ownership or investment interest in the hospital. The ownership or investment interest may be through equity, debt, or other means, and includes an interest in an entity that holds an ownership or investment interest in the hospital. This definition does not include a hospital with physician ownership or investment interests that satisfy the requirements at 42 C.F.R. section 411.356(a) or (b).

Section 4: Practice Location Information

SECTION 4: PRACTICE LOCATION INFORMATION

INSTRUCTIONS

This section captures information about the physical location(s) where you currently provide health care services.

Complete this section for each of your practice locations where you render services to Medicare beneficiaries. This includes all locations, where services are rendered, and disclosed on claims forms for reimbursement. If you have and see patients at more than one practice location or health care facility, ***copy and complete this section for each location.***

IMPORTANT: The provider should designate its primary practice location in Section 4A. The "primary practice location" must be associated with the NPI that the provider intends to use to bill for Medicare services.

All reported practice location addresses must be a specific street address as recorded by the United States Postal Service. Your practice location must be the physical location where you render services to Medicare beneficiaries. It cannot be a Post Office (P.O.) Box.

Only report those practice locations that are within the jurisdiction of the designated MAC to which you will be submitting this application. If you have to report practice locations outside the jurisdiction of the designated MAC to which you are submitting this application, you must submit a separate CMS-855A enrollment application to the MAC that has jurisdiction for those locations.

If you are enrolling for the first time or adding a new practice location, the date you provide should be the date you saw your first Medicare patient at this location.

If the provider is adding a practice location in the same state and the location requires a separate provider agreement, a separate, complete CMS-855A must be submitted for that location. The location is considered a separate provider for purposes of enrollment, and is not considered a practice location of the main provider. If a provider agreement is not required, the location can be added as a practice location.

If the provider is adding a practice location in another state and the location requires a separate provider agreement, a separate, complete CMS-855A must be submitted for that location. (This often happens when a home health agency wants to perform services in an adjacent state.)

If you have any questions as to whether the practice location requires a separate state survey or provider agreement, contact your MAC.

- **Hospitals** must report all practice locations where the hospital provides services. Do not report separately enrolled provider types such as skilled nursing facilities (SNFs), HHAs, RHCs, etc., even if these entities are provider-based to the hospital. For example, suppose a hospital owns a SNF and an HHA. The hospital should not list the SNF and HHA on its application, as they are not locations where the hospital furnishes services. They are providers that are separate and distinct from the hospital, and will be reported on their respective CMS-855A applications.
- **Community Mental Health Centers (CMHCs)** must report all alternative sites where core services are provided (proposed alternative sites for initial enrollment and actual alternative sites for those CMHCs already participating in Medicare). In accordance with provisions of the Public Health Service Act, a CMHC is required to provide mental health services principally to individuals who reside in a defined geographic area (service area). Therefore, CMHCs must service a distinct and definable community. Those CMHCs operating or proposing to operate outside of this specific community must have a separate provider agreement/number, submit a separate enrollment application, and individually meet the requirements to participate. CMS will determine if the alternative site is permissible or whether the site must have a separate agreement/number. CMS will consider the actual demonstrated transportation pattern of CMHC clients within the community to ensure that all core services and partial hospitalization services are available from each location within the community. A CMHC patient must be able to access and receive services he/she needs at the parent CMHC site or the alternative site within the distinct and definable community served by the parent.

SECTION 4: PRACTICE LOCATION INFORMATION *(Continued)*

Base of Operations Address

If this provider does not have a physical location where equipment and/or vehicles are stored or from where personnel report on a regular basis, complete this section with information about the location of the dispatcher/scheduler. This situation may occur if the provider operates mobile units that travel continuously from one location directly to another.

NOTE: HHAs must complete this section.

Mobile Facility and/or Portable Units

A "mobile facility" is generally a mobile home, trailer, or other large vehicle that has been converted, equipped, and licensed to render health care services. These vehicles usually travel to local shopping centers or community centers to see and treat patients inside the vehicle.

A "portable unit" is when the provider transports medical equipment to a fixed location (e.g., a physician's office or nursing home) to render services to the patient.

The most common types of mobile facilities/portable units are portable x-ray suppliers, portable mammography, and mobile clinics.

If you operate a mobile facility or portable unit, provide the address for the "Base of Operations" as well as the vehicle information and the geographic area serviced by these facilities or units.

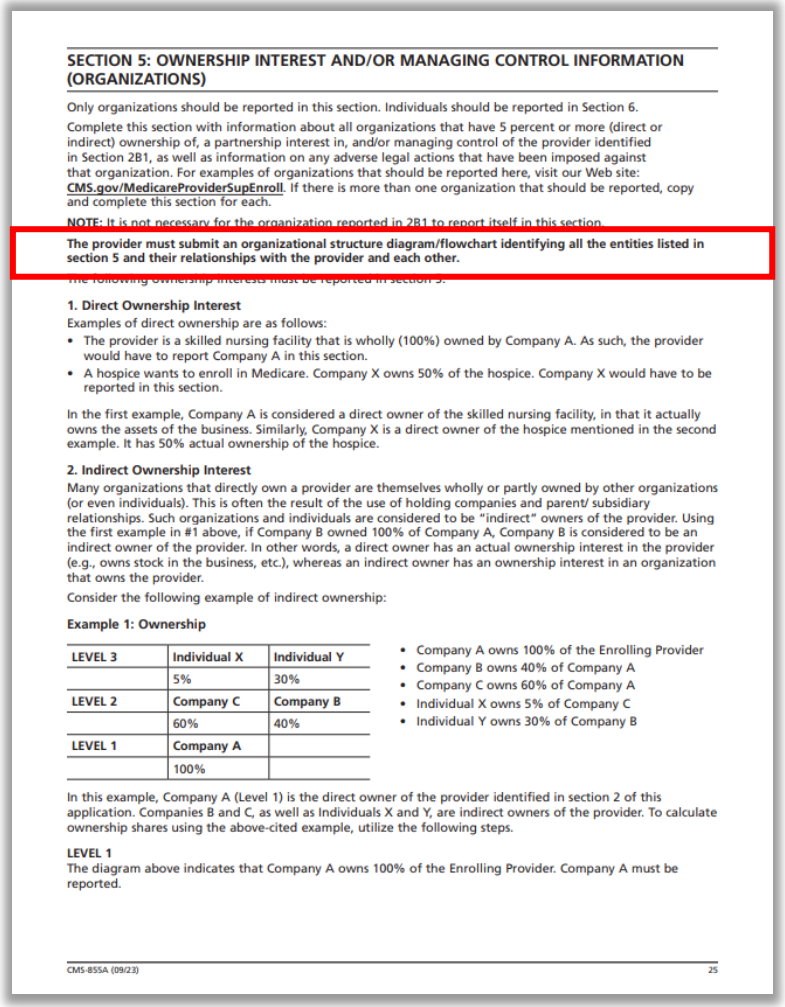
Section 5: Ownership Interest and/or Managing Control Information (Organizations)



SECTION 5: OWNERSHIP INTEREST AND/OR MANAGING CONTROL INFORMATION (ORGANIZATIONS)

Only organizations should be reported in this section. Individuals should be reported in Section 6.

Complete this section with information about all organizations that have 5 percent or more (direct or indirect) ownership of, a partnership interest in, and/or managing control of the provider identified in Section 2B1, as well as information on any adverse legal actions that have been imposed against that organization. For examples of organizations that should be reported here, visit our Web site: CMS.gov/MedicareProviderSupEnroll. If there is more than one organization that should be reported, copy and complete this section for each.

NOTE: It is not necessary for the organization reported in 2B1 to report itself in this section.

The provider must submit an organizational structure diagram/flowchart identifying all the entities listed in section 5 and their relationships with the provider and each other.

1. Direct Ownership Interest

Examples of direct ownership are as follows:

- The provider is a skilled nursing facility that is wholly (100%) owned by Company A. As such, the provider would have to report Company A in this section.
- A hospice wants to enroll in Medicare. Company X owns 50% of the hospice. Company X would have to be reported in this section.

In the first example, Company A is considered a direct owner of the skilled nursing facility, in that it actually owns the assets of the business. Similarly, Company X is a direct owner of the hospice mentioned in the second example. It has 50% actual ownership of the hospice.

2. Indirect Ownership Interest

Many organizations that directly own a provider are themselves wholly or partly owned by other organizations (or even individuals). This is often the result of the use of holding companies and parent/ subsidiary relationships. Such organizations and individuals are considered to be "indirect" owners of the provider. Using the first example in #1 above, if Company B owned 100% of Company A, Company B is considered to be an indirect owner of the provider. In other words, a direct owner has an actual ownership interest in the provider (e.g., owns stock in the business, etc.), whereas an indirect owner has an ownership interest in an organization that owns the provider.

Consider the following example of indirect ownership:

Example 1: Ownership

LEVEL 3	**Individual X**	**Individual Y**
	5%	30%
LEVEL 2	**Company C**	**Company B**
	60%	40%
LEVEL 1	**Company A**	
	100%	

- Company A owns 100% of the Enrolling Provider
- Company B owns 40% of Company A
- Company C owns 60% of Company A
- Individual X owns 5% of Company C
- Individual Y owns 30% of Company B

In this example, Company A (Level 1) is the direct owner of the provider identified in section 2 of this application. Companies B and C, as well as Individuals X and Y, are indirect owners of the provider. To calculate ownership shares using the above-cited example, utilize the following steps.

LEVEL 1

The diagram above indicates that Company A owns 100% of the Enrolling Provider. Company A must be reported.

CMS-855A (09/23) 25

- Organizational Flowchart/Diagram

In additional to furnishing the information in this section, the provider must submit:

- An organizational diagram identifying all of the entities listed in this section and their relationships with the provider and with each other.
- A diagram identifying the organizational structures of all of its owners, including owners that were not required to be listed in this section or in Section 6, only if the provider is a skilled nursing facility.

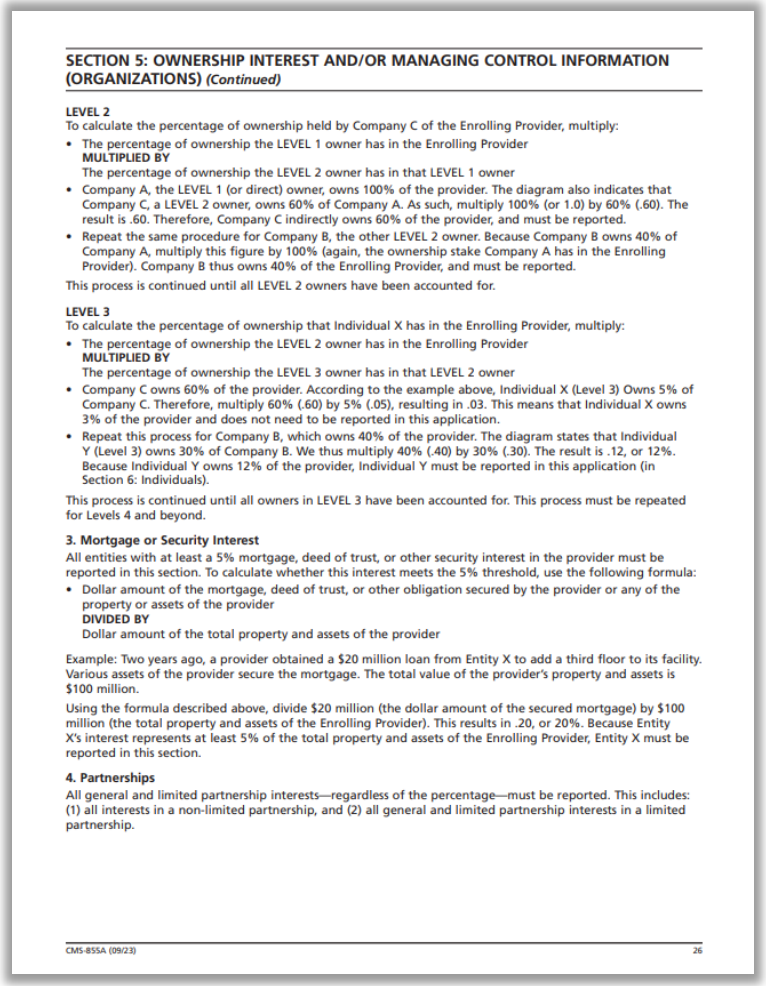
Note that the diagrams must include all individuals with any of the ownership interests indicated in Section 6.

Diagram Sample:

Level 0	**Provider (Applicant)**
Level 1	**Company A** – owns 100% of provider (direct owner) 100% x 100% = **100%**
Level 2	**Company B** – owns 40% of company A (Indirect owner) 100% x 40% = **40%** **Company C** – owns 60% of company A (indirect owner) 100% x 60% = **60%**
Level 3	**Individual Y** – owns 30% of company B (indirect owner) 40% x 30% = **12%** **Individual X** – owns 5% of company C (indirect owner) 60% X 5% = **3%**

Using the information above Company A (100%), B (40%) and C (60%) is at least 5% or greater direct or indirect ownership they must be indicated in section 5. Individual Y (12%) is at least 5% or greater indirect ownership they must be indicated in section 6. Since Individual X (3%) is less than 5% indirect owner, they do not need to be listed in section 6 but **must** be indicated in diagram.

Section 5: Ownership Interest and/or Managing Control Information (Organizations)



SECTION 5: OWNERSHIP INTEREST AND/OR MANAGING CONTROL INFORMATION (ORGANIZATIONS) *(Continued)*

LEVEL 2
To calculate the percentage of ownership held by Company C of the Enrolling Provider, multiply:

- The percentage of ownership the LEVEL 1 owner has in the Enrolling Provider
  MULTIPLIED BY
  The percentage of ownership the LEVEL 2 owner has in that LEVEL 1 owner
- Company A, the LEVEL 1 (or direct) owner, owns 100% of the provider. The diagram also indicates that Company C, a LEVEL 2 owner, owns 60% of Company A. As such, multiply 100% (or 1.0) by 60% (.60). The result is .60. Therefore, Company C indirectly owns 60% of the provider, and must be reported.
- Repeat the same procedure for Company B, the other LEVEL 2 owner. Because Company B owns 40% of Company A, multiply this figure by 100% (again, the ownership stake Company A has in the Enrolling Provider). Company B thus owns 40% of the Enrolling Provider, and must be reported.

This process is continued until all LEVEL 2 owners have been accounted for.

LEVEL 3
To calculate the percentage of ownership that Individual X has in the Enrolling Provider, multiply:

- The percentage of ownership the LEVEL 2 owner has in the Enrolling Provider
  MULTIPLIED BY
  The percentage of ownership the LEVEL 3 owner has in that LEVEL 2 owner
- Company C owns 60% of the provider. According to the example above, Individual X (Level 3) Owns 5% of Company C. Therefore, multiply 60% (.60) by 5% (.05), resulting in .03. This means that Individual X owns 3% of the provider and does not need to be reported in this application.
- Repeat this process for Company B, which owns 40% of the provider. The diagram states that Individual Y (Level 3) owns 30% of Company B. We thus multiply 40% (.40) by 30% (.30). The result is .12, or 12%. Because Individual Y owns 12% of the provider, Individual Y must be reported in this application (in Section 6: Individuals).

This process is continued until all owners in LEVEL 3 have been accounted for. This process must be repeated for Levels 4 and beyond.

3. Mortgage or Security Interest
All entities with at least a 5% mortgage, deed of trust, or other security interest in the provider must be reported in this section. To calculate whether this interest meets the 5% threshold, use the following formula:

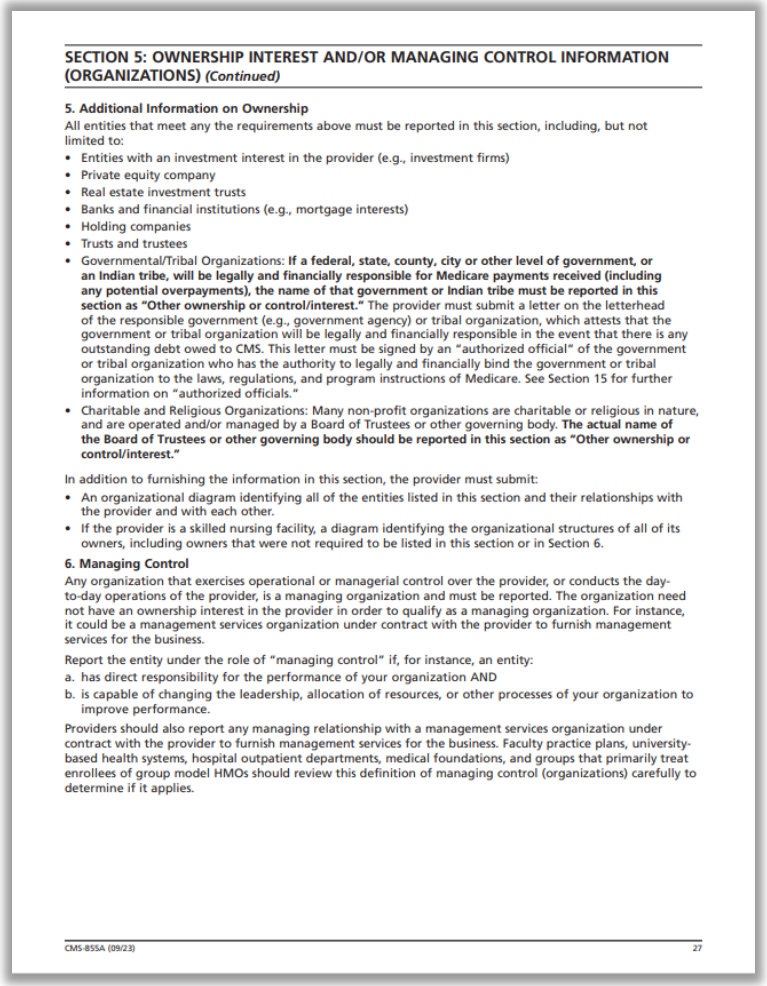
- Dollar amount of the mortgage, deed of trust, or other obligation secured by the provider or any of the property or assets of the provider
  DIVIDED BY
  Dollar amount of the total property and assets of the provider

Example: Two years ago, a provider obtained a $20 million loan from Entity X to add a third floor to its facility. Various assets of the provider secure the mortgage. The total value of the provider's property and assets is $100 million.

Using the formula described above, divide $20 million (the dollar amount of the secured mortgage) by $100 million (the total property and assets of the Enrolling Provider). This results in .20, or 20%. Because Entity X's interest represents at least 5% of the total property and assets of the Enrolling Provider, Entity X must be reported in this section.

4. Partnerships
All general and limited partnership interests—regardless of the percentage—must be reported. This includes: (1) all interests in a non-limited partnership, and (2) all general and limited partnership interests in a limited partnership.

CMS-855A (09/23) 26



SECTION 5: OWNERSHIP INTEREST AND/OR MANAGING CONTROL INFORMATION (ORGANIZATIONS) *(Continued)*

5. Additional Information on Ownership
All entities that meet any the requirements above must be reported in this section, including, but not limited to:

- Entities with an investment interest in the provider (e.g., investment firms)
- Private equity company
- Real estate investment trusts
- Banks and financial institutions (e.g., mortgage interests)
- Holding companies
- Trusts and trustees
- Governmental/Tribal Organizations: **If a federal, state, county, city or other level of government, or an Indian tribe, will be legally and financially responsible for Medicare payments received (including any potential overpayments), the name of that government or Indian tribe must be reported in this section as "Other ownership or control/interest."** The provider must submit a letter on the letterhead of the responsible government (e.g., government agency) or tribal organization, which attests that the government or tribal organization will be legally and financially responsible in the event that there is any outstanding debt owed to CMS. This letter must be signed by an "authorized official" of the government or tribal organization who has the authority to legally and financially bind the government or tribal organization to the laws, regulations, and program instructions of Medicare. See Section 15 for further information on "authorized officials."
- Charitable and Religious Organizations: Many non-profit organizations are charitable or religious in nature, and are operated and/or managed by a Board of Trustees or other governing body. **The actual name of the Board of Trustees or other governing body should be reported in this section as "Other ownership or control/interest."**

In addition to furnishing the information in this section, the provider must submit:

- An organizational diagram identifying all of the entities listed in this section and their relationships with the provider and with each other.
- If the provider is a skilled nursing facility, a diagram identifying the organizational structures of all of its owners, including owners that were not required to be listed in this section or in Section 6.

6. Managing Control
Any organization that exercises operational or managerial control over the provider, or conducts the day-to-day operations of the provider, is a managing organization and must be reported. The organization need not have an ownership interest in the provider in order to qualify as a managing organization. For instance, it could be a management services organization under contract with the provider to furnish management services for the business.

Report the entity under the role of "managing control" if, for instance, an entity:

a. has direct responsibility for the performance of your organization AND
b. is capable of changing the leadership, allocation of resources, or other processes of your organization to improve performance.

Providers should also report any managing relationship with a management services organization under contract with the provider to furnish management services for the business. Faculty practice plans, university-based health systems, hospital outpatient departments, medical foundations, and groups that primarily treat enrollees of group model HMOs should review this definition of managing control (organizations) carefully to determine if it applies.

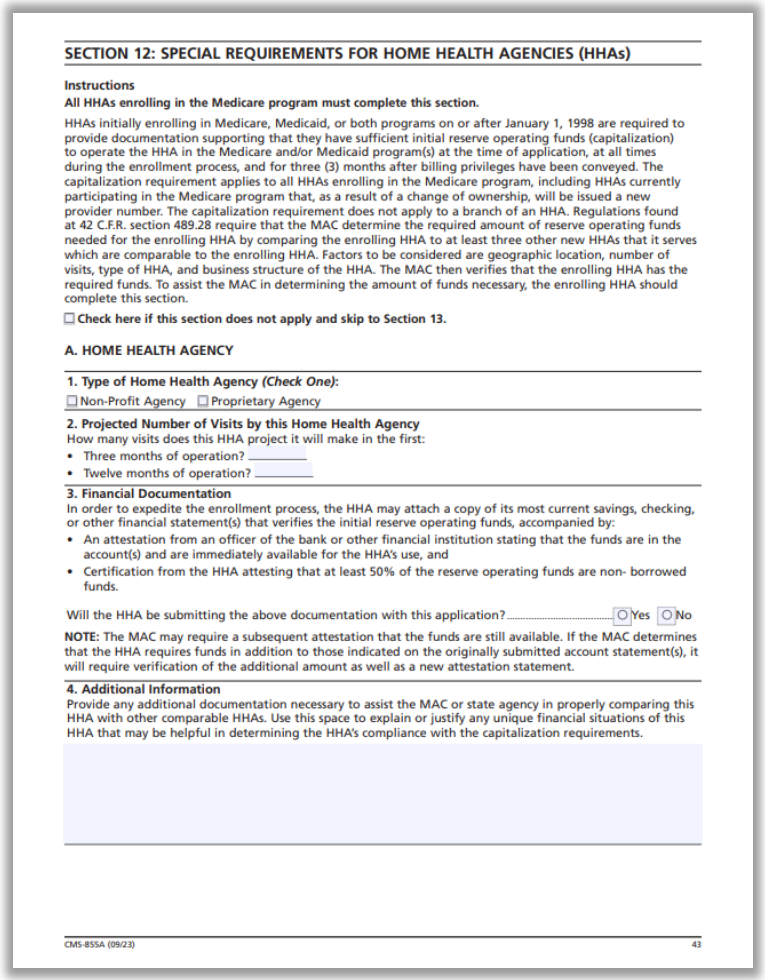
SECTION 11: FOR FUTURE USE (THIS SECTION NOT APPLICABLE)

Section 12: Special Requirements for (HHAs)



SECTION 12: SPECIAL REQUIREMENTS FOR HOME HEALTH AGENCIES (HHAs)

Instructions

All HHAs enrolling in the Medicare program must complete this section.

HHAs initially enrolling in Medicare, Medicaid, or both programs on or after January 1, 1998 are required to provide documentation supporting that they have sufficient initial reserve operating funds (capitalization) to operate the HHA in the Medicare and/or Medicaid program(s) at the time of application, at all times during the enrollment process, and for three (3) months after billing privileges have been conveyed. The capitalization requirement applies to all HHAs enrolling in the Medicare program, including HHAs currently participating in the Medicare program that, as a result of a change of ownership, will be issued a new provider number. The capitalization requirement does not apply to a branch of an HHA. Regulations found at 42 C.F.R. section 489.28 require that the MAC determine the required amount of reserve operating funds needed for the enrolling HHA by comparing the enrolling HHA to at least three other new HHAs that it serves which are comparable to the enrolling HHA. Factors to be considered are geographic location, number of visits, type of HHA, and business structure of the HHA. The MAC then verifies that the enrolling HHA has the required funds. To assist the MAC in determining the amount of funds necessary, the enrolling HHA should complete this section.

☐ **Check here if this section does not apply and skip to Section 13.**

A. HOME HEALTH AGENCY

1. Type of Home Health Agency *(Check One)*:

☐ Non-Profit Agency ☐ Proprietary Agency

2. Projected Number of Visits by this Home Health Agency

How many visits does this HHA project it will make in the first:

- Three months of operation? _____
- Twelve months of operation? _____

3. Financial Documentation

In order to expedite the enrollment process, the HHA may attach a copy of its most current savings, checking, or other financial statement(s) that verifies the initial reserve operating funds, accompanied by:

- An attestation from an officer of the bank or other financial institution stating that the funds are in the account(s) and are immediately available for the HHA's use, and
- Certification from the HHA attesting that at least 50% of the reserve operating funds are non- borrowed funds.

Will the HHA be submitting the above documentation with this application? ○ Yes ○ No

NOTE: The MAC may require a subsequent attestation that the funds are still available. If the MAC determines that the HHA requires funds in addition to those indicated on the originally submitted account statement(s), it will require verification of the additional amount as well as a new attestation statement.

4. Additional Information

Provide any additional documentation necessary to assist the MAC or state agency in properly comparing this HHA with other comparable HHAs.
