- Revalidating your Medicare enrollment. CMS may require you to submit or update your enrollment information. The MAC will notify you when it is time for you to revalidate your enrollment information. Do not submit a revalidation application until you have been contacted by the MAC.
- Previously enrolled in Medicare and you need to reactivate your Medicare billing number to resume billing. Prior to being reactivated, you must meet all current requirements for your provider or supplier type before reactivation may occur.
- Currently enrolled in Medicare and need to make changes to your enrollment information (e.g., you have added or changed a practice location). Changes must be reported in accordance with the timeframes established in 42 C.F.R. section 424.516.

NOTE: Ownership changes that do not qualify as CHOWs, acquisitions/mergers, or consolidations should be reported. For instance, assume that a business entity's stock is owned by A, B, and C. A sells his stock to D. While this is an ownership change, it is generally not a formal CHOW under 42 C.F.R. 489.18. Thus, the ownership change from A to D should be reported as a change of information, not a CHOW. If you have any questions on whether an ownership change should be reported as a CHOW or a change of information, contact your MAC or CMS location.

CMS-855A (09/24)

### Reporting a Change of Ownership (CHOW), Acquisition/Merger or Consolidation

- A CHOW typically occurs when a Medicare provider has been purchased (or leased) by another
  organization. The CHOW results in the transfer of the old owner's Medicare ldentification Number and
  provider agreement (including any outstanding Medicare debt of the old owner) to the new owner. The
  regulatory citation for CHOWs can be found at 42 C.F.R. § 489.18. If the purchaser (or lessee) elects not to
  accept a transfer of the provider agreement, the old agreement should be terminated and the purchaser
  or lessee is considered a new applicant and must initially enroll in Medicare.
- An acquisition/merger occurs when a currently enrolled Medicare provider is purchasing or has been
  purchased by another enrolled provider. Only the purchaser's Medicare Identification Number and
  Tax Identification Number remain. Acquisitions/imergers are different from CHOWs. In the case of an
  acquisition/merger, the selfer/former owner's Medicare Identification Number dissolves. In a CHOW, the
  selfer/former owner's provider number typically remains intact and is transferred to the new owner.
- A consolidation occurs when two or more enrolled Medicare providers consolidate to form a new business entity. Consolidations are different from acquisitions/mergers. In an acquisition/merger, two entities combine but the Medicare Identification Number and Tax Identification Number (TIN) of the purchasing entity remain intact. In a consolidation, the TINs and Medicare Identification Numbers of the consolidating entities dissolve and a new TIN and Medicare Identification Number are assigned to the new, consolidated entity.

Because of the various situations in which a CHOW, acquisition/merger, or consolidation can occur, it is recommended that the provider contact its MAC if it is unsure as to whether such a transaction has occurred. The provider should also review the applicable federal regulation at 42 C.F.R. § 489.18 for additional guidance. Note that the transactions described above as CHOWs, acquisition/mergers, and consolidation can constitute a 42 C.F.R. § 489.18 (e.g., a consolidation can constitute a 42 C.F.R. § 483.18 (e.g., a consolidation can constitute a 42 C.F.R. § 483.18 (e.g., a consolidation can constitute a 42 C.F.R. § 483.18 (e.g., a consolidation can constitute a 42 C.F.R. § 483.18 (e.g., a consolidation can constitute a 42 C.F.R. § 483.18 CHOW). They are separated into three categories on the application strictly to help the provider understand the precise data that must be reported.

- Voluntarily terminating your Medicare billing privileges. A provider should voluntarily terminate its
  Medicare enrollment when it:
- Will no longer be rendering services to Medicare patients, or
- Is planning to cease (or has ceased) operations.

NOTE: Submit separate CMS-855A enrollment applications if the types of providers for which this application is being submitted are separately recognized provider types with different rules regarding Medicare participation. For example, if a provider functions as both a hospital and an end-stage renal disease (ESRD) facility, the provider must complete two separate enrollment applications (CMS-855A)—one for the hospital and one for the ESRD facility. If a hospital performs multiple types of services, only one enrollment application (CMS-855A) is required. To illustrate, a hospital that has a swing-bed unit need only submit one enrollment application (CMS-855A). This is because the provider is operating as a single provider type—a hospital—that happens to have a distinct part furnishing different/additional services.

### Additional Instructions

The Provider Transaction Access Number (PTAN), often referred to as a Medicare Provider Number, Medicare Billing Number, CMS Certification Number (CCN), or Medicare "legacy" number, is a generic term for any number other than the National Provider Identifier (NPI) that is used by a provider to bill the Medicare program.

The National Provider Identifier (NPI) is the standard unique health identifier for health care providers and suppliers and is assigned by the National Plan and Provider Enumeration System (NPPE5). Medicare healthcare providers, except organ procurement organizations, must obtain an NPI prior to enrolling in Medicare or before submitting a change to your existing Medicare enrollment information. Applying for an NPI is a process separate from Medicare enrollment. As an organizational health care provider, it is your responsibility to determine if you have "subparts." A subpart is a component of an organization that furnishes healthcare and is not itself a legal entity. If you do have subparts, you must determine if they should obtain their own unique NPIs. Before you complete this enrollment application, you need to make those determinations and obtain NPIG) accordingly. For more information about subparts, visit <u>CMS.gov/Regulations.and-Guidance/Administrative-Simplification/</u> <u>AtionalProvidentStand/implementation to view the "Medicare Expectations Subparts Paper." To obtain an NPI, you may apply online at <u>nppes.cms.hhs.gov</u>. For more information about NPI enumeration, visit <u>CMS.gov/Regulations-and-Guidance/Administrative-Simplification/</u></u>

NOTE: The Legal Business Name (LBN) and Tax Identification Number (TIN) that you furnish in section 2B1 must be the same LBN and TIN you used to obtain your NPI. Once this information is entered into PECOS from this application, your LBN, TIN and NPI *must* match exactly in both the Medicare Provider Enrollment Chain and Ownership System (PECOS) and the National Plan and Provider Enumeration System (NPPES).

Organizational Health Care Providers (Entity Type 2): Organizational health care providers are eligible for an Entity Type 2 NPI (Organizations). Organizational health care providers may have a single employee or thousands of employees. Examples of organizational providers include hospitals, home health agencies, groups/clinics, nursing homes, ambulance companies, health care provider corporations formed by groups/ individuals, and single member LLCs with an EIN, but do not include individual health care providers.

### OBTAINING MEDICARE APPROVAL

The usual process for becoming a certified Medicare provider is as follows:

- 1. The applicant completes and submits a CMS-855A enrollment application and all supporting
- documentation to its MAC.
- The MAC reviews the application and makes a recommendation for approval or denial to the State survey agency, with a copy to CMS.
- The State agency or approved accreditation organization conducts a survey. Based on the survey results, the State agency makes a recommendation for approval or denial (a certification of compliance or noncompliance) to CMS. Certain provider types may elect voluntary accreditation by a CMS-recognized accrediting organization in lieu of a state survey.
- The MAC conducts a second contractor review, as needed, to verify that a provider continues to meet the enrollment requirements prior to granting Medicare billing privileges.
- CMS makes the final decision regarding program eligibility. If approved, the provider must typically sign a provider agreement.

- If you are changing hospital types (e.g., general hospital to a psychiatric hospital), indicate this in Section a A new/separate enrollment is not necessary.
- If the hospital will focus on certain specialized services, the applicant should analyze whether the facility will be a general hospital or will fall under the category of a specialty hospital. A specialty hospital is defined as a facility that is primarily engaged in cardiac, orthopedic, or surgical care. Based upon Diagnosis Related Group/Major Diagnosis Category (DRG/MDC) and type (medicals/usrgical), the applicant should project all inpatient discharges expected in the first vear of the hospital's operation. Those applicants that project that 45% or more of the hospital's inpatient cases will fall in either cardiac (MDC-8), orthopedic (MDC-8), or surgical cares should check the Hospital-Dspital block in Section 2A2.
- Physician-owned hospital means any participating hospital (as defined in 42 C.F.R. section 489.24) in which
  a physician, or an immediate family member of a physician has an ownership or investment interest in the
  hospital. The ownership or investment interest may be through equity, debt, or other means, and includes
  an interest in an entity that holds an ownership or investment interest in the hospital. This definition does
  not include a hospital with physician ownership or investment interests that satisfy the requirements at
  42 C.F.R. section 411.356(a) or (b).

### SECTION 4: PRACTICE LOCATION INFORMATION

### INSTRUCTIONS

This section captures information about the physical location(s) where you currently provide health care services.

Complete this section for each of your practice locations where you render services to Medicare beneficiaries. This includes all locations, where services are rendered, and disclosed on claims forms for reimbursement. If you have and see patients at more than one practice location or health care facility, *copy and complete this section for each location*.

IMPORTANT: The provider should designate its primary practice location in Section 4A. The "Primary practice location" must be associated with the NPI that the provider intends to use to bill for Medicare services.

All reported practice location addresses must be a specific street address as recorded by the United States Postal Service. Your practice location must be the physical location where you render services to Medicare beneficiaries. It cannot be a Post Office (P.O.) Box.

Only report those practice locations that are within the jurisdiction of the designated MAC to which you will be submitting this application. If you have to report practice locations outside the jurisdiction of the designated MAC to which you are submitting this application, you must submit a separate CMS-855A enrollment application to the MAC that has jurisdiction for those locations.

If you are enrolling for the first time or adding a new practice location, the date you provide should be the date you saw your first Medicare patient at this location.

If the provider is adding a practice location in the same state and the location requires a separate provider agreement, a separate, complete CMS-855A must be submitted for that location. The location is considered a separate provider for purposes of enrollment, and is not considered a practice location of the main provider. If a provider agreement is not required, the location can be added as a practice location.

If the provider is adding a practice location in another state and the location requires a separate provider agreement, a separate, complete CMS-855A must be submitted for that location. (This often happens when a home health agency wants to perform services in an adjacent state.)

If you have any questions as to whether the practice location requires a separate state survey or provider agreement, contact your MAC.

- Hospitals must report all practice locations where the hospital provides services. Do not report separately
  enrolled provider types such as skilled nursing facilities (SNFs), HHAs, RHCs, etc., even if these entities are
  provider-based to the hospital. For example, suppose a hospital owns a SNF and an HHA. The hospital
  should not list the SNF and HHA on its application, as they are not locations where the hospital furnishes
  services. They are providers that are separate and distinct from the hospital, and will be reported on their
  respective CMS-85SA applications.
- Community Mental Health Centers (CMHCs) must report all alternative sites where core services are provided (proposed alternative sites for initial enrollment and actual alternative sites for those CMHCs already participating in Medicare). In accordance with provisions of the Public Health Service Art, a CMHC is required to provide mental health services principally to individuals who reside in a defined geographic area (service area). Therefore, CMHCs must service a distinct and definable community. Those CMHCs operating or proposing to operate outside of this specific community must have a separate provider agreement/number, submit a separate enrollment application, and individually meet the requirements to participate. CMS will determine if the alternative site is permissible or whether the site must have a separate agreement/number, SUM Suil Consider the actual demonstrated transportation pattern of CMHC clients within the community to ensure that all core services and partial hospitalization services and receive services he/she needs at the parent CMHC site or the alternative site within the distinct and definable community served by the parent.

### SECTION 4: PRACTICE LOCATION INFORMATION (Continued)

### Base of operations address

If this provider does not have a physical location where equipment and/or vehicles are stored or from where personnel report on a regular basis, complete this section with information about the location of the dispatcher/scheduler. This situation may occur if the provider operates mobile units that travel continuously from one location directly to another.

NOTE: HHAs must complete this section.

### Mobile facility and/or portable units

A "mobile facility" is generally a mobile home, trailer, or other large vehicle that has been converted, equipped, and licensed to render health care services. These vehicles usually travel to local shopping centers or community centers to see and treat patients inside the vehicle.

A "portable unit" is when the provider transports medical equipment to a fixed location (e.g., a physician's office or nursing home) to render services to the patient.

The most common types of mobile facilities/portable units are portable x-ray suppliers, portable mammography, and mobile clinics.

If you operate a mobile facility or portable unit, provide the address for the "base of operations" as well as the vehicle information and the geographic area serviced by these facilities or units.

### Section 5: Ownership Interest and/or Managing Control Information (Organizations)

### SECTION 5: OWNERSHIP INTEREST AND/OR MANAGING CONTROL INFORMATION (ORGANIZATIONS)

Only organizations should be reported in this section. Individuals should be reported in Section 6. Check here if you are a Skilled Nursing Facility and skip this section. All organizational ownership interest and managing control information must be reported in Attachment 1.

Complete this section with information about all organizations that have 5 percent or more (direct or indirect) ownership of, a partnership interest in, and/or managing control of the provider identified in Section 281, as well as information on any adverse legal actions that have been imposed against that organization. For examples of organizations that should be reported here, visit our Web site: CMS.gov/MedicareProviderSupEnroll. If there is more than one organization that should be reported, copy inte this section for each

NOTE: It is not necessary for the organization reported in 281 to report itself in this section The provider must submit an organizational structure diagram/flowchart identifying all the entities listed in section 5 and their relationships with the provider and each other.

1. Direct ownership interest

Examples of direct ownership are as follows:

- · The provider is a skilled nursing facility that is wholly (100%) owned by Company A. As such, the provider would have to report Company A in this section.
- · A hospice wants to enroll in Medicare. Company X owns 50% of the hospice. Company X would have to be reported in this section.

In the first example, Company A is considered a direct owner of the skilled nursing facility, in that it actually owns the assets of the business. Similarly, Company X is a direct owner of the hospice mentioned in the second example. It has 50% actual ownership of the hospice.

### 2. Indirect ownership interest

Many organizations that directly own a provider are themselves wholly or partly owned by other organizations (or even individuals). This is often the result of the use of holding companies and parent/ subsidiary relationships. Such organizations and individuals are considered to be "indirect" owners of the provider. Using the first example in #1 above, if Company 8 owned 100% of Company A, Company B is considered to be an indirect owner of the provider. In other words, a direct owner has an actual ownership interest in the provider (e.g., owns stock in the business, etc.), whereas an indirect owner has an ownership interest in an organization that owns the provider

Consider the following example of indirect ownership:

Example:

LEVEL 3	Individual X	Individual Y		Company
	5%	30%		Company Company
LEVEL 2	Company C	Company B		Individua
	60%	40%	•	Individua
LEVEL 1	Company A			
	100%			

A owns 100% of the enrolling provider 8 owns 40% of Company A Cowns 60% of Company A I X owns 5% of Company C al Y owns 30% of Company B

In this example, Company A (Level 1) is the direct owner of the provider identified in section 2 of this application. Companies 8 and C, as well as Individuals X and Y, are indirect owners of the provider. To calculate ownership shares using the above-cited example, utilize the following steps.

LEVEL 1

The diagram above indicates that Company A owns 100% of the Enrolling Provider. Company A must be reported

CM5 855A (292-6)

 Organizational Flowchart/Diagram

In additional to fu	rnishing the information in this section, the provider must submit:
	nal diagram identifying all of the entities listed in this section and their relationships der and with each other.
	ntifying the organizational structures of all of its owners, including owners that were o be listed in this section or in Section 6, only if the provider is a skilled nursing facility
Note that the diag Section 6.	rams must include all individuals with any of the ownership interests indicated in
Diagram Samp	ole:
Level 0	Provider (Applicant)
Level 1	<b>Company A</b> – owns 100% of provider (direct owner) 100% x 100% = <b>100%</b>
Level 2	<b>Company B</b> – owns 40% of company A (Indirect owner) $100\% \times 40\% = 40\%$
	Company C – owns 60% of company A (indirect owner) 100% x 60% = <b>60%</b>
Level 3	Individual Y – owns 30% of company B (indirect owner) 40% x 30% = 12%
	Individual X – owns 5% of company C (indirect owner) 60% X 5% = 3%
direct or in or greater	information above Company A (100%), B (40%) and C (60%) is at least 5% or greater direct ownership they must be indicated in section 5. Individual Y (12%) is at least 5% indirect ownership they must be indicated in section 6. Since Individual X (3%) is less indirect owner, they do not need to be listed in section 6 but <b>must</b> be indicated in

diagram.

# Section 5: Ownership Interest and/or Managing Control Information (Organizations)

### SECTION 5: OWNERSHIP INTEREST AND/OR MANAGING CONTROL INFORMATION (ORGANIZATIONS) (Continued)

### LEVEL 2

- To calculate the percentage of ownership held by Company C of the Enrolling Provider, multiply:
- The percentage of ownership the LEVEL 1 owner has in the Enrolling Provider MULTIPLIED BY
- The percentage of ownership the LEVEL 2 owner has in that LEVEL 1 owner
- Company A, the LEVEL 1 (or direct) owner, owns 100% of the provider. The diagram also indicates that Company C, a LEVEL 2 owner, owns 60% of Company A. As such, multiply 100% (or 1.0) by 60% (.60). The result is. 60. Therefore, Company C indirectly owns 60% of the provider, and must be reported.
- Repeat the same procedure for Company B, the other LEVEL 2 owner. Because Company B owns 40% of Company A, multiply this figure by 100% (again, the ownership stake Company A has in the Enrolling Provider). Company B thus owns 40% of the Enrolling Provider, and must be reported.
   This process is continued until all LEVEL 2 owners have been accounted for.

### LEVEL 3

- To calculate the percentage of ownership that Individual X has in the Enrolling Provider, multiply:
- The percentage of ownership the LEVEL 2 owner has in the Enrolling Provider MULTIPLIED BY
- The percentage of ownership the LEVEL 3 owner has in that LEVEL 2 owner
- Company C owns 60% of the provider. According to the example above, Individual X (Level 3) Owns 5% of Company C. Therefore, multiply 60% (.60) by 5% (.05), resulting in .03. This means that Individual X owns 3% of the provider and does not need to be reported in this application.
- Repeat this process for Company B, which owns 40% of the provider. The diagram states that Individual Y (Level 3) owns 30% of Company B. We thus multiply 40% (.40) by 30% (.30). The result is .12, or 12%. Because Individual Y owns 12% of the provider, Individual Y must be reported in this application (in Section 6: Individuals).

This process is continued until all owners in LEVEL 3 have been accounted for. This process must be repeated for Levels 4 and beyond.

### 3. Mortgage or security interest

All entities with at least a 5% mortgage, deed of trust, or other security interest in the provider must be reported in this section. To calculate whether this interest meets the 5% threshold, use the following formula:

Dollar amount of the mortgage, deed of trust, or other obligation secured by the provider or any of the property or assets of the provider DIVIDED BY

Dollar amount of the total property and assets of the provider

Example: Two years ago, a provider obtained a \$20 million loan from Entity X to add a third floor to its facility. Various assets of the provider secure the mortgage. The total value of the provider's property and assets is \$100 million.

Using the formula described above, divide \$20 million (the dollar amount of the secured mortgage) by \$100 million (the total property and assets of the Enrolling Provider). This results in .20, or 20%. Because Entity X's interest represents at least 5% of the total property and assets of the Enrolling Provider, Entity X must be reported in this section.

### 4. Partnerships

All general and limited partnership interests—regardless of the percentage—must be reported. This includes: (1) all interests in a non-limited partnership, and (2) all general and limited partnership interests in a limited partnership.

CMS-855A (09/24)

### SECTION 5: OWNERSHIP INTEREST AND/OR MANAGING CONTROL INFORMATION (ORGANIZATIONS) (Continued)

### 5. Additional information on ownership

- All entities that meet any the requirements above must be reported in this section, including, but not limited to:
- Entities with an investment interest in the provider (e.g., investment firms)
- Private equity company
- Real estate investment trusts
- Banks and financial institutions (e.g., mortgage interests)
- Holding companies
- Trusts and trustees
- Governmental/tribal organizations: If a federal, state, county, city or other level of government, or an Indian tribe, will be legally and financially responsible for Medicare payments received (including any potential overpayments), the name of that government or Indian tribe must be reported in this section as "Other ownership" or "Other control/interest." The provider must submit a letter on the letterhead of the responsible government (e.g., government agency) or tribal organization, which attests that the government or tribal organization will be legally and financially responsible in the event that there is any outstanding debt owed to CMS. This letter must be signed by an "authorized official" of the government or tribal organization who has the authority to legally and financially bind the government or tribal organization to the laws, regulations, and program instructions of Medicare. Go to Section 15 for further information on "authorized officials."
- Charitable and religious organizations: Many non-profit organizations are charitable or religious in nature, and are operated and/or managed by a Board of Trustees or other governing body. The actual name of the Board of Trustees or other governing body should be reported in this section as "other ownership" or "other control/interest."

In addition to furnishing the information in this section, the provider must submit:

An organizational diagram identifying all of the entities listed in this section and their relationships with
the provider and with each other.

### 6. Managing control

Any organization that exercises operational or managerial control over the provider, or conducts the dayto-day operations of the provider, is a managing organization and must be reported. The organization need not have an ownership interest in the provider in order to qualify as a managing organization. For instance, it could be a management services organization under contract with the provider to furnish management services for the business.

Report the entity under the role of "managing control" if, for instance, an entity:

- a. has direct responsibility for the performance of your organization AND
- b. is capable of changing the leadership, allocation of resources, or other processes of your organization to improve performance.

Providers should also report any managing relationship with a management services organization under contract with the provider to furnish management services for the business. Faculty practice plans, universitybased health systems, hospital outpatient departments, medical foundations, and groups that primarily treat enrollees of group model HMOs should review this definition of managing control (organizations) carefully to determine if it applies.

## Section 12: Special Requirements for (HHAs)

(Continued)

## SECTION 12: SPECIAL REQUIREMENTS FOR HOME HEALTH AGENCIES (HHAs)

## Instructions

## All HHAs enrolling in the Medicare program must complete this section.

HHAs initially enrolling in Medicare, Medicaid, or both programs on or after January 1, 1998 are required to provide documentation supporting that they have sufficient initial reserve operating funds (capitalization) to operate the HHA in the Medicare and/or Medicaid program(s) at the time of application, at all times during the enrollment process, and for three (3) months after billing privileges have been conveyed. The capitalization requirement applies to all HHAs enrolling in the Medicare program, including HHAs currently participating in the Medicare program that, as a result of a change of ownership, will be issued a new provider number. The capitalization requirement does not apply to a branch of an HHA. Regulations found at 42 C.F.R. section 489.28 require that the MAC determine the required amount of reserve operating funds needed for the enrolling HHA by comparing the enrolling HHA to at least three other new HHAs that it serves which are comparable to the enrolling HHA. Factors to be considered are geographic location, number of visits, type of HHA, and busines structure of the HHA. The MAC then everifies that the enrolling HHA shas the required funds. To assist the MAC in determining the amount of funds necessary, the enrolling HHA should complete this section.

Check here if this section does not apply and skip to Section 13.

## A. HOME HEALTH AGENCY

## 1. Type of Home Health Agency (check one):

O Non-profit agency O Proprietary agency

## 2. Projected number of visits by this Home Health Agency

How many visits does this HHA project it will make in the first: • Three months of operation?

- Twelve months of operation? \_\_\_\_\_

## 3. Financial documentation

- In order to expedite the enrollment process, the HHA may attach a copy of its most current savings, checking, or other financial statement(s) that verifies the initial reserve operating funds, accompanied by:
- An attestation from an officer of the bank or other financial institution stating that the funds are in the
  account(s) and are immediately available for the HHA's use, and
- Certification from the HHA attesting that at least 50% of the reserve operating funds are non-borrowed funds.

Will the HHA be submitting the above documentation with this application?......OYes ONo

NOTE: The MAC may require a subsequent attestation that the funds are still available. If the MAC determines that the HHA requires funds in addition to those indicated on the originally submitted account statement(s), it will require verification of the additional amount as well as a new attestation statement.

## 4. Additional information

CMS-855A (09/24)

Provide any additional documentation necessary to assist the MAC or state agency in properly comparing this HHA with other comparable HHAs. ## Section 15: Certification Statement

## SECTION 15: CERTIFICATION STATEMENT

An AUTHORIZED OFFICIAL is defined as an appointed official (for example, chief executive officer, chief financial officer, general partner, chairman of the board, or direct owner) to whom the organization has granted the legal authority to enroll it in the Medicare program, to make changes or updates to the organization's status in the Medicare program, and to commit the organization to fully abide by the statutes, regulations, and program instructions of the Medicare orgarm.

A DELEGATED OFFICIAL is defined as an individual who is delegated by an authorized official the authority to report changes and updates to the provider's enrollment record. A delegated official must be an individual with an "ownership or control interest" in (as that term is defined in section 1124(a)(3) of the Social Security Act), or be a W-2 managing employee of the provider.

Delegated officials may not delegate their authority to any other individual. Only an authorized official may delegate the authority to make changes and/or updates to the provider's Medicare status. Even when delegated officials are reported in this application, an authorized official retains the authority to make any such changes and/or updates by providing his or her printed name, signature, and date of signature as required in section 158.

NOTE: Authorized officials and delegated officials must be reported in section 6, either on this application or on a previous application to this same MAC. If this is the first time an authorized and/or delegated official has been reported on the CMS-855A, you must complete Section 6 for that individual and that individual must sign section 15.

By his/her signature(s), an authorized official binds the provider to all of the requirements listed in the Certification Statement and acknowledges that the provider may be denied entry to or revoked from the Medicare program if any requirements are not met.

Only an authorized official has the authority to sign (1) the initial enrollment application on behalf of the provider and (2) add or remove additional authorized officials and delegated officials. Once the delegation of authority has been established all other enrollment application submissions can be signed by either an authorized official or delegated official.

By signing this application, an authorized official agrees to immediately notify the MAC if any information furnished on this application is not true, correct, or complete. In addition, an authorized official, by his/her signature, agrees to notify the MAC of any future changes to the information contained in this form after the provider is enrolled in Medicare, in accordance with the timeframes established in 42 C.F.R. section 424.516.

The provider can have as many authorized officials as it wants. If the provider has more than two authorized officials, it should copy and complete this section as needed.

EACH AUTHORIZED AND DELEGATED OFFICIAL MUST HAVE AND DISCLOSE HIS/HER SOCIAL SECURITY NUMBER.

## SECTION 15: CERTIFICATION STATEMENT (Continued)

## A. ADDITIONAL REQUIREMENTS FOR MEDICARE ENROLLMENT

These are additional requirements that the provider must meet and maintain in order to bill the Medicare program. Read these requirements carefully. By signing, the provider is attesting to having read the requirements and understanding them.

By his/her signature(s), the authorized official(s) named below and the delegated official(s) named in Section 15D agree to adhere to the following requirements stated in this Certification Statement:

- I authorize the Medicare contractor to verify the information contained herein. I agree to notify the Medicare contractor of any future changes to the information contained in this application in accordance with the time frames established in 42 C.F.R. section 424.516. I understand that any change in the business structure of this provider may require the submission of a new application.
- 2. I have read and understand the Penalties for Falsifying Information, as printed in this application. I understand that any omission, misrepresentation, or falsification of any information contained in this application or contained in any communication supplying information to Medicare, or any alteration of any text on this application form, may be punished by criminal, civil, or administrative penalties including, but not limited to, the denial or revocation of Medicare billing privileges, and/or the imposition of fines, civil damages, and/or imprisonment.
- 3. I agree to abide by the Medicare laws, regulations and program instructions that apply to me or to the organization listed in section. 281 of this application. The Medicare laws, regulations, and program instructions are available through the Medicare Administrative Contractor. I understand that payment of a claim by Medicare is conditioned upon the claim and the underlying transaction complying with such laws, regulations, and program instructions (including, but not limited to, the Federal Anti-Kickback Statute, 42 U.S.C. section 1320a-7b(b) (section 11288(b) of the Social Security Act) and the Physician Self-Referal Law (Stark Law), 42 U.S.C. section 1395nn (Section 1877 of the Social Security Act)).
- 4. Neither this provider, nor any five percent or greater owner, partner, officer, director, managing employee, authorized official, or delegated official thereof is currently sanctioned, suspended, debarred, or excluded by Medicare, a state health care program, e.g., Medicaid program, or any other federal program, or is otherwise prohibited from supplying services to Medicare or other federal program beneficiaries.
- I agree that any existing or future overpayment made to the provider by the Medicare program may be recouped by Medicare through the withholding of future payments.
- 6. I will not knowingly present or cause to be presented a false or fraudulent claim for payment by Medicare, and I will not submit claims with deliberate ignorance or reckless disregard of their truth or falsity.
- 7. I authorize any national accrediting body whose standards are recognized by the Secretary as meeting the Medicare program participation requirements, to release to any authorized representative, employee, or agent of the Centers for Medicare & Medicaid Services (CMS), a copy of my most recent accreditation survey, together with any information related to the survey that CMS may require (including corrective action plans).

- The signature of a delegated official shall have the same force and effect as that of an authorized official, and shall legally and financially bind the provider to the laws, regulations, and program instructions of the Medicare program. By his or her signature, the delegated official certifies that he or she has read the certification statement in Section 15 and agrees to adhere to all of the stated requirements. A delegated official also certifies that he/she meets the definition of a delegated official. When making changes and/or updates to the provider's enrollment information maintained by the Medicare program, a delegated official certifies that the information provided is true, correct, and complete.
- Delegated officials being removed do not have to sign or date this application.
- Independent contractors are not considered "employed" by the provider and therefore, cannot be delegated officials.

All skilled nursing facilities (SNFs) must complete this attachment with their application during

- Initial enrollment
- Revalidation
- · Change of information (though only with respect to the information that is changing)
- Change of Ownership (CHOW)

## ORGANIZATION INSTRUCTIONS

## Ownership interest, managing control, additional disclosable party information

- · Complete this section to report an organization identified below. Visit CMS.gov/medicare/
- enrollment-renewal/providers-suppliers for examples of organizations to report
- · Report information on any adverse legal actions that have been imposed against the organization
- To report more than 1 organization, copy and complete this section for each organization
- Don't report individuals in this section

## Submit 2 organizational structure diagrams or flowcharts:

- · One chart must identify all the entities listed in Section A and show their relationships with the provider and each other
- One chart must identify the organizational structures of all its owners, including owners not listed in this attachment (e.g., less than 5% direct or indirect owners).

## Report these ownership interests in this section:

## Direct ownership interest

- A direct owner has an actual ownership interest in the provider itself (e.g., owns stock in the business). Examples
- · Company A wholly (100%) owns the enrolling SNF provider. The provider would report Company A because Company A is a direct owner of the SNF and owns the assets of the business
- Company X owns 50% of the enrolling SNF provider. The provider would report Company X as a direct owner because Company X has 50% ownership of the SNF.

## Indirect ownership interest

An indirect owner has an ownership interest in an organization that owns the provider or in another indirect owner. Many organizations that directly own a provider are themselves wholly or partly owned by other organizations or individuals. This is often the result of the use of holding companies and parent/ subsidiary relationships. Such organizations and individuals are considered to be "indirect" owners of the provider. Using the example above, if Company B owned 100% of Company A, Company B is considered to be an indirect owner of the provider.

## ATTACHMENT 1: SKILLED NURSING FACILITY DISCLOSURES (Continued)

In this example, Company A (Level 1) is the direct owner of the provider, Companies B and C, as well as individuals X and Y, are indirect owners of the provider. To calculate ownership shares using the example above, use these steps:

## Level 1

Company A owns 100% of the enrolling provider. You must report Company A.

## Level 2

- To calculate the percentage of ownership held by Company C of the enrolling provider:
- · The percentage of ownership the Level 1 owner has in the enrolling provider multiplied by the percentage of ownership the Level 2 owner has in the Level 1 owner.
- · Company A, the Level 1 (or direct) owner, owns 100% of the provider. In the diagram Company C. a Level 2 owner, owns 60% of Company A. Multiply 100% (or 1.0) by 60% (.60). The result is .60. Company C indirectly owns 60% of the provider. You must report it.
- · Repeat this process for Company B, the other Level 2 owner. Because Company B owns 40% of Company A, multiply this figure by 100% (the ownership stake Company A has in the enrolling provider). Company B indirectly owns 40% of the enrolling provider. You must report it.

## Continue this process until all Level 2 owners are accounted for.

- Level 3
- To calculate the percentage of ownership that Individual X has in the enrolling provider:
- The percentage of ownership the Level 2 owner has in the enrolling provider multiplied by the percentage of ownership the Level 3 owner has in that Level 2 owner.
- · Company C owns 60% of the provider. In the example above, Individual X (Level 3) owns 5% of Company C. Multiply 60% (.60) by 5% (.05). The result is .03. Individual X indirectly owns 3% of the provider, which does not meet the 5% threshold. You do not report it.
- · Repeat this process for Company B, which owns 40% of the provider. In the diagram Individual Y (Level 3) owns 30% of Company B. Multiply 40% (.40) by 30% (.30). The result is .12, or 12%. Individual Y owns 12% of the provider. You must report it.

Continue this process until all Level 3 owners are accounted for. Repeat this process for Levels 4 and beyond.

## General and limited partnerships interests

Report all general and limited partnership interests-regardless of the percentage. This includes all partnership interests in a non-limited partnership, and all general and limited partnership interests in a limited partnership

## Mortgage or security interest

Report all entities with at least a 5% mortgage, deed of trust, or other security interest in the SNF. To calculate whether this interest meets the 5% threshold, use the following formula:

 Dollar amount of the mortgage, deed of trust, or other obligation secured by the SNF or any of the property or assets of the SNF divided by dollar amount of the total property and assets of the SNF.

Example: Two years ago, a SNF obtained a \$20 million loan from Entity X to add a third floor to its facility. Various assets of the SNF secure the mortgage. The total value of the SNF's property and assets is \$100 million

Using the formula above, divide \$20 million (the dollar amount of the secured mortgage) by \$100 million (the total property and assets of the Enrolling SNF). This results in .20, or 20%. Entity X must be reported because their interest represents at least 5% of the total property and assets of the enrolling SNE.

## Operational/managing control

- Any organization that exercises operational, managerial control over the provider, or directly or indirectly conducts the day-to-day operations of the provider. The organization need not have an ownership interest in the provider to qualify as a managing organization. For instance, it could be a management services organization under contract with the provider to furnish management services for the business
- · Any organization that has direct responsibility for the performance of your organization or can change the leadership, allocation of resources, or other processes of your organization to improve performance.

CMS-855A: Attachment 1 (09/24)

## ATTACHMENT 1: SKILLED NURSING FACILITY DISCLOSURES (Continued)

 Any managing relationship with a management services organization under contract with the provider to furnish management services for the business. Faculty practice plans, university-based health systems, hospital outpatient departments, medical foundations, and groups that primarily treat enrollees of group model HMOs should review this definition of managing control (organizations) carefully to determine if it applies.

## Additional disclosable party

- · Any organization that exercises operational, financial, or managerial control over the facility, provides policies procedures for any of the operations of the facility, or provides financial or cash management services to the facility:
- · Any organization that leases or subleases real property to the facility, or owns a whole or part interest equal to or exceeding 5 percent of the total value of such real property; or
- · Any organization that provides management or administrative services, management or clinical consulting services, or accounting or financial services to the facility.

The organizational structure (as that term is defined in section 1124(c)(5)(D) of the Social Security Act) of each additional disclosable party must be identified in section D of the Organizations portion of this attachment. This means that the following parties must be reported:

- · For ADPs that are corporations: All their 5% or greater direct and indirect owners.
- · For ADPs that are LLCs: All their direct and indirect owners (regardless of the percentage) and all their managing organizations and individuals.
- For ADPs that are general partnerships: All the partners, regardless of the percentage.
- · For ADPs that are limited partnerships: All general partners (regardless of the percentage) and all limited partners with at least a 10 percent interest.
- · For ADPs that are trusts: All trustees.

Along with furnishing the above data in section D, the SNF must also submit a diagram of the organizational structure of each additional disclosable party of the facility. This must include a written description of the relationship of each such additional disclosable party to the facility and to all the SNF's other additional disclosable parties. For examples of organizations to report, visit CMS.gov/medicare/enrollment-renewal/providers-suppliers.

## · Additional ownership interests and/or managing control

- The organizations above include, but are not limited to, the following. You must report them in this attachment:
- Entities with an investment interest in the provider (like investment firms)
- Private equity companies
- Real estate investment trusts
- · Banks and financial institutions (like mortgage interests)
- Holding companies
- Trusts and trustees

 Governmental/tribal organizations: Federal, state, county, city, or other level of government, or an Indian tribe, legally and financially responsible for Medicare payments received (including any potential overpayments), must report the name of that government or Indian tribe in the applicable section. The provider must submit a letter on the letterhead of the responsible government (like a government agency) or tribal organization, which attests that the government or tribal organization will be legally and financially responsible if there is any outstanding debt owed to CMS. This letter must be signed by an "authorized official" of the government or tribal organization who has the authority to legally and financially bind the government or tribal organization to the laws, regulations, and program instructions of Medicare. Go to section 15 for further information on "authorized officials." Charitable and Religious Organizations: Many non-profit organizations are charitable or religious in

nature and are operated and/or managed by a Board of Trustees or other governing body. Report the actual name of the Board of Trustees or other governing body in the applicable section.
