Objectives

 Provide an overview of Medicare coverage and eligibility for Medicare Diabetes and Prevention Program

Agenda

- Medicare Diabetes Prevention Program (MDPP)
 - Medicare eligibility
 - Overview
 - Codes and billing
 - Claim submissions
 - NGSConnex, EMC, and paper
 - Contact information
 - References

MDPP Initiative

- Preventing type 2 diabetes in individuals with indication of prediabetes
- Credential qualified providers/suppliers to deliver MDPP services
- Set up systems to allow MDPP suppliers to bill with coaches as rendering
- Process claims for service period that may occur up to two years
- G-codes may be used only one time per eligible beneficiary

Medicare MDPP Enrollment

- Providers or suppliers shall have CDC preliminary or full recognition
- May enroll with NGS after preliminary or full recognition from CDC
- Coaches are listed on Medicare enrollment application with NPI, but will not have provider transaction access numbers

Provider/Supplier Steps

- Step 1
 - Register DDP with CDC and wait for process
- Step 2
 - Obtain CDC preliminary or full recognition
- Step 3
 - Obtain NPI, this includes coaches NPIs
- Step 4
 - Enroll as a Medicare MDPP provider/supplier type (PECOS or CMS-20134)

Physician Solicitation

- Practitioners have important roles to help beneficiaries understand risk of diabetes and treatment options
- If you suspect patient(s) may have diabetes, refer patients to MDPP supplier
- Earlier condition is diagnosed, sooner treatment can begin

Beneficiary Eligibility

- Determine beneficiary eligibility
- Whether beneficiary receives Medicare Part B coverage via
 - Fee-for-service Medicare
 - Medicare Advantage
- Disclose required information about set of MDPP services before first core session
