

Documenting Home Health Eligibility Criteria Series - **The Plan of Care** (Presentation Four)

4/20/2023

Disclaimer

National Government Services, Inc. has produced this material as an informational reference for providers furnishing services in our contract jurisdiction. National Government Services employees, agents, and staff make no representation, warranty, or guarantee that this compilation of Medicare information is error-free and will bear no responsibility or liability for the results or consequences of the use of this material. Although every reasonable effort has been made to assure the accuracy of the information within these pages at the time of publication, the Medicare Program is constantly changing, and it is the responsibility of each provider to remain abreast of the Medicare Program requirements. Any regulations, policies and/or guidelines cited in this publication are subject to change without further notice. Current Medicare regulations can be found on the [CMS website](#).

Recording

Attendees/providers are never permitted to record (tape record or any other method) our educational events. This applies to webinars, teleconferences, live events and any other type of National Government Services educational events.

Objective

Offer federal Medicare regulatory direction to home health agencies and other provider types ordering, referring, providing oversight, and/or care for patients receiving home health services.

Provide a greater understanding of medical record documentation within the plan of care that assist in supporting Medicare home health eligibility criteria.

The Medicare Home Health Benefit & Eligibility Criteria

The Medicare Home Health Benefit

- Services that the Medicare beneficiary (patient) may receive at home include:

Skilled Nursing

Home Health
Aides

Physical
Therapy (PT)

Occupational
Therapy (OT)

Speech
Language
Pathology (SLP)

Social Work
(SW)

Home Health Eligibility Criteria

Confined to the Home
(Homebound)

Have a Need for Skilled
Services (in the Home)

Remain Under the Care
of a Physician and/or
Allowed Practitioner
(Oversight)

Receive Services
Following a Plan of Care

Had a Face-to-Face
Encounter

Home Health Eligibility Criteria

Does the patient meet **All Five** eligibility criteria?

- **Is the patient homebound?**
 - ✓ *Are they able to leave the home to receive services?*
- **Do they have a need for the skilled/professional services in the home?**
 - ✓ *Is the patient able to receive the “skilled” services on an outpatient basis in an office or clinic?*
- **Is there a physician and/or allowed practitioner that has agreed to monitor home health services?**
 - ✓ *Is that name identified within the referral and/or medical record documentation?*
- **Is there a plan of care in place or started?**
 - ✓ *What is the intent of the referral for home health services?*
- **Did the patient have a face-to-face encounter for their current primary diagnosis?**
 - ✓ *Is there a copy of the medical record documentation identifying the encounter?*

The Plan of Care

The Plan of Care

- All home health services are expected to be delivered under the care of a physician and/or allowed practitioner who signs the plan of care (POC).
- It is expected that in most instances that the physician or allowed practitioner who certifies the patient's eligibility for Medicare home health services, will be the same physician or allowed practitioner who establishes and signs the plan of care.

The Plan of Care

Allowed practitioners in addition to physicians, can certify and recertify beneficiaries for eligibility, order home health services, and establish and review the care plan; the provider types include:

- Physician Assistant (PAs)
- Nurse Practitioner (NPs)
- Clinical Nurse Specialist (CNS)

Individual states have varying requirements for conditions of practice, which determine whether a nurse practitioner may work independently without a written collaborative agreement or supervision from a physician, or whether general or direct supervision and collaboration is required.

PAs, NPs, CNS are required to **practice in accordance with state law** in the state in which the individual performs such services.

The Plan of Care

- The plan of care must include the identification of the responsible discipline(s), the frequency and duration of all visits, as well as those items listed in the Conditions of Participation (COPs) that establish the need for such services.
- All care provided to the patient by the home health agency must be in accordance with the POC.

[Conditions of Participation 42 CFR 484.60\(a\)](#)

The Plan of Care

- The POC must be reviewed and signed by the physician or allowed practitioner who established the POC, in consultation with the agency's professional personnel, **at least every 60 days**.
- Each review of a patient's plan of care requires the signature of the physician or allowed practitioner overseeing home health services, as well as the date of review.

The Plan of Care

- It is expected that the physician and/or allowed practitioner who has agreed to oversee home health services and monitor the plan of care will remain constant in the care of the patient.
 - Multiple physicians and/or allowed practitioners should not be involved in the oversight of home health care services and the plan of care (signing orders, recertification's, etc.).

The Plan of Care

- There are no mandatory forms for the POC.
- The [CMS Form 485](#) is commonly utilized as the POC.
- The CMS Form 485 has an area where the physician or allowed practitioner certifies [all five eligibility criteria](#) (slide 11) have been met, including the requirements of the POC.

| | |
|---|--|
| 24. Physician's Name and Address | 26. I certify this patient is confined to his/her home and needs intermittent skilled nursing care, physical therapy and/or speech therapy, or continues to need occupational therapy. This patient is under my care, and I have authorized the services on this plan of care, and will periodically review the plan. I further certify this patient had a face-to-face encounter that was performed on xx/xx/xxxx by a physician or Medicare allowed non-physician practitioner that was related to the primary reason the patient requires home health services. |
| 27. Attending Physician's Signature and Date Signed | 28. Anyone who misrepresents, falsifies, or conceals essential information required for payment of Federal funds may be subject to fine, imprisonment, or civil penalty under applicable Federal laws. |

The Plan of Care

■ Reminders:

- As per federal regulation, home health agencies that maintain patient records via computer may utilize appropriately authenticated and dated electronic signatures.
- The plan of care is considered terminated if the patient does not receive at least one covered skilled service within a 60-day certification period unless a physician or non-physician practitioner documents that the interval without care is appropriate to the treatment of the patient's illness/injury.

Physician Certification of Terminal Illness

- Must be obtained by the medical director of the hospice or the physician member of the hospice IDG and the individual's attending physician if the individual has an attending physician
- No one other than a medical doctor or doctor of osteopathy can certify or recertify an individual as terminally ill as the responsibility of hospice medical director or physician member of the hospice IDG
- Nurse practitioners and physician assistants cannot certify or recertify an individual as terminally ill
- In the event that a beneficiary's attending physician is a nurse practitioner or a physician assistant, the hospice medical director or the physician member of the hospice IDG certifies the individual as terminally ill
