Today's Presenters

- Shelly Dailey MSN, BSN, RN, CPHM; Provider Outreach and Education Consultant

Disclaimer

National Government Services, Inc. has produced this material as an informational reference for providers furnishing services in our contract jurisdiction. National Government Services employees, agents, and staff make no representation, warranty, or guarantee that this compilation of Medicare information is error-free and will bear no responsibility or liability for the results or consequences of the use of this material. Although every reasonable effort has been made to assure the accuracy of the information within these pages at the time of publication, the Medicare Program is constantly changing, and it is the responsibility of each provider to remain abreast of the Medicare Program requirements. Any regulations, policies and/or guidelines cited in this publication are subject to change without further notice. Current Medicare regulations can be found on the [CMS website](#).

No Recording

Attendees/providers are **never** permitted to record (tape record or **any** other method) our educational events. This applies to webinars, teleconferences, live events and any other type of National Government Services educational events.

Objective

Offer federal Medicare regulatory direction to providers ordering, referring, providing oversight, and/or providing services to patients receiving home health services in an effort to provide a greater understanding of medical record documentation collaboration requirements that support home health eligibility criteria.

The Medicare Home Health Benefit and Eligibility Criteria

The Medicare Home Health Benefit

- **Services that the Medicare beneficiary (patient) may receive at home include:**
 - Skilled Nursing (SN)
 - Home Health Aides (HHAs)
 - Physical Therapy (PT)
 - Occupational Therapy (OT)
 - Speech Language Pathology (SLP)
 - Social Work (SW)

Home Health Eligibility Criteria

- **The beneficiary (patient) must:**

- Be confined to the home (homebound)
- Have a need for skilled services (in the home)
- Remain under the care of a physician or allowed practitioner (oversight)
- Receive services following a plan of care (POC)
- Have had a face-to-face (FTF) encounter

Home Health Eligibility Criteria

- Upon receipt of referral, the home health agency staff must ensure that:
 - The agency receives **ALL DOCUMENTATION** from the referring, certifying acute/post-acute care facility or provider office to support that the patient is eligible to receive home health services utilizing their Medicare benefit.
 - The patient meets **ALL FIVE** eligibility criteria.

Home Health Eligibility Criteria

- **Is the patient *homebound*?**
 - ✓ Are they able to leave the home to receive health care services on an outpatient basis?
- **Does the patient have a *need for skilled/professional services* in the home?**
 - ✓ Is the patient able to receive the skilled services on an outpatient basis in an office or clinic?
- **Is there a physician and/or an allowed practitioner that has agreed to provide *oversight* of home health services?**
 - ✓ Is the name of the provider who agreed to provide oversight identified within the referral and/or medical record documentation?
- **Is there a *plan of care* in place or started?**
 - ✓ What is the intent of the referral for home health services?
- **Did the patient have a *face-to-face encounter* for their current primary diagnosis?**
 - ✓ Is there a copy of the medical record documentation identifying the 1:1 encounter?

Documentation Collaboration

Documentation Collaboration

- Medical record documentation regarding any and all eligibility criteria should be shared with the home health agency at the point of referral.
- Documentation from the referring acute/post-acute care facility or the physician and/or allowed practitioner office related to the primary reason related to the need for home health services must be included in the home health agency medical record.

Effective Communication

The home health agency must ensure they communicate effectively with the referring acute/post-acute care facility, as well as the physician and/or allowed practitioner who has agreed to monitor home health services.

Efficient Collaboration

Efficient collaboration between all entities referring to and/or providing home health services ensures the home health agency is able to obtain medical record documentation from all entities that support beneficiary/patient eligibility.

Well-Organized Documentation

Well-organized medical record documentation shared between entities at the time of referral ensures a smooth transition of healthcare services, as well as an increased quality of care for Medicare beneficiaries/patients.

Documentation Collaboration

- Medicare reimbursement **will not be rendered** if pieces of the medical record documentation from outside entities that supports eligibility to receive home health services is not obtained.
 - It is the responsibility of the home health agency to ensure this documentation is obtained.
- The home health agency must request documentation supporting beneficiary/patient eligibility from all other entities that have provided, and continue to provide, care to the patient.
 - This includes contacting the referring, certifying/recertifying, acute/post-acute care, physician and/or allowed practitioners facilities and health care offices to obtain medical records that support eligibility to receive home health services.

Documentation Collaboration

- Home health agencies require as much documentation for the certifying physician/allowed practitioner medical records and/or the acute/post-acute care facility's medical records as necessary to assure that all five of the eligibility criteria have been met.
- Medical record documentation from the certifying physician/allowed practitioner medical records and/or the acute/post-acute care facility's medical records (if the patient was directly admitted to home health) **will be used as the basis upon which patient eligibility for the Medicare home health benefit will be determined.**
- The home health agency must be able to provide all medical record documentation to CMS and its review entities upon request.

Documentation Collaboration

- The home health agency generated medical record documentation for the patient, **by itself**, is not sufficient in demonstrating the patient's eligibility for Medicare home health services.
- It is the patient's medical record held by the certifying physician/allowed practitioner and/or the acute/post-acute care facility that must support "eligibility" criteria for home health services.

Documentation Collaboration

- **Examples of documentation to obtain at the point of referral to home health services include, but is not limited to**
 - Referral and orders for home health services
 - Documentation from anywhere in the medical record supporting homebound status and the need for skilled services
 - The actual face-to-face encounter documentation (not a form) identifying that a one-on-one physician and/or allowed practitioner visit occurred (with a diagnosis that is related to the primary reason the beneficiary/patient requires home health services)
 - ✓ Discharge summary
 - ✓ Interoffice progress notes

Documentation Collaboration

Agency Documentation

Documentation from the home health agency can be incorporated into the certifying physician and/or allowed practitioner office medical record in an effort to support eligibility for home health services.

Physician/Allowed Practitioner Documentation

The certifying physician and/or allowed practitioner providing oversight of home health services must review and sign any medical record documentation used to support certification of eligibility criteria.

Timely Documentation

All documentation used to verify and/or support home health eligibility must be dated prior to submission of the claim.

Ask a Question using the Question Box

The screenshot displays the GoToWebinar interface. At the top, there's a menu bar with 'File', 'View', and 'Help'. Below it, a tab shows 'Attendee List (2 | Max 201)'. The main area is divided into sections: 'Attendees (1)' with a 'Staff (1)' button, a dropdown menu set to 'NAMES - ALPHABETICALLY', and a list showing 'Corena Bahr (Me)'. Below this is a 'Search' field. The 'Audio' section includes 'Audio Mode' with radio buttons for 'Use Telephone' and 'Use Mic & Speakers' (selected), a 'MUTED' status indicator, and a volume slider. Below the audio section, it says 'Talking: Suzie Smith'. The 'Questions' section features a 'Questions Log' with a sample question and answer, and a text input field with 'Yes' entered. A 'Send' button is located to the right of the input field. Two red arrows are overlaid on the image: one pointing to the input field with the text 'Type questions here', and another pointing to the 'Send' button with the text 'Then click Send'.

NGS Home Health and Hospice On-Demand Video Library

- YouTube
- [Home Health & Hospice On-Demand Video Library](#)

The screenshot displays a YouTube channel page for "NGS Medicare". The left sidebar shows navigation options: Home, Explore, Subscriptions, Library, History, Your videos, Watch later, and Liked videos. The main content area features a playlist titled "HHH On-Demand Videos" with 7 videos, 50 views, and a last update on Dec 9, 2021. The playlist includes a "PLAY ALL" button. Below the playlist, there is a "SUBSCRIPTIONS" section showing the channel "NGSMedicare.com" with a "SUBSCRIBED" button and a notification bell icon. To the right, a list of four videos is displayed:

1. **Hospice Documentation - Painting the Picture of the Terminal Patient** (1:08:28)
2. **Hospice - General Inpatient Documentation** (1:02:34)
3. **Home Health Eligibility Criteria - Documenting Homebound Status** (44:12)
4. **Responding to a Home Health & Hospice ADR** (55:04)

2023 HHH MAC Collaborative Summit

Save the Date

September 13, 14, 15, 2023

Flamingo Las Vegas Hotel & Casino
355 S. Las Vegas Boulevard
Las Vegas, NV 89109

Early Bird Registration \$249
Includes three full days of education!

Rooms: \$95/night
Group Name: 2023 HHH Medicare Summit
<https://book.passkey.com/go/SFH3H3>

The background is a solid dark blue. On the right side, there are large, overlapping, semi-transparent geometric shapes in a lighter shade of blue, including a large 'S' or 'R' shape and a triangular shape. In the bottom-left corner, there is a pattern of small, light blue dots arranged in a grid-like fashion.
