- Provide education to providers to help ensure future compliance

# MR Process

- Leverage data analysis to identify
  - Providers and suppliers who have high claim error rates or unusual billing practices

- Verify if issue approved by CMS via “CMS Approved Review Topics” list
- Consider
  - CERT findings
  - Referrals from other entities: OIG, UPIC, RAC

The background is a solid blue color with a complex, abstract pattern of overlapping geometric shapes. These shapes include various polygons, triangles, and rounded rectangles, some of which are semi-transparent, creating a layered, three-dimensional effect. The shapes are arranged in a way that suggests movement and depth, with some shapes appearing to recede into the background while others come forward.
